DETAILED ACTION

Allowable Subject Matter

1. Claims 1-27 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Claims 1-10 and 24-26 are allowable over the prior art of record since the cited references, taken individually or in combination, fail to particularly teach or suggest a method of switching fabric port mapping for a multi-shelf switching fabric wherein the logical to physical port mappings are broadcast via the switching fabric using control cells to all physical ports on all shelves and further the updates to the logical to physical mappings is done locally by a manager on each of the shelves. It is noted that the references cited in the IDS filed on 4/24/2007 are product specification and field notice for the Cisco MGX 8850 switch and fail to teach the allowable subject matter disclosed above.
4. Claims 11-23 and 27 are allowable over the prior art of record since the cited references, taken individually or in combination, fail to particularly teach or suggest a switching fabric port mapping apparatus for a multi-shelf switching fabric wherein the logical to physical port mappings are broadcast via the switching fabric to all physical ports on all shelves and further the updates to the logical to physical mappings is done locally by a manager on each of the shelves. It is noted that the references cited in the IDS filed on 4/24/2007 are product specification and field notice for the Cisco MGX 8850 switch and fail to teach the allowable subject matter disclosed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
